### **DETAILED ACTION**

1. This application claims benefit of the provisional application: 60/322,236 with a filing date 09/14/2001.
2. Amendment of claims 1, 6-8, 13-14, and a terminal disclaimer in the amendment filed on February 22, 2005, is acknowledged. Claims 1-21 are pending in the application.

### ***Responses to Amendment***

3. Since a terminal disclaimer has been filed and approved, therefore, rejection of claims 1-14 over Hegde et al. US 6,770,665 under obviousness-type double patenting, has been overcome in the amendment filed on February 22, 2005.

### ***EXAMINER'S AMENDMENT***

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Craig E. Mixan on March 23, 2005. The application has been amended as follows:

In claim 15, line 4, after "compound of the formula", insert

### ***Reasons for Allowance***

5. The following is an examiner's statement of reasons for allowance:

Claims 1-14 directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 15-21, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claim 15-21 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on August 11, 2004, is hereby withdrawn.

Claims 1-21 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to insecticidal 2-(2,6-disubstituted phenyl)-5-[5-arylthien-3-yl]-1,2,4-triazole. The closest reference is Hegde et al. US 6,770,665, a parent case of instant application, discloses insecticidal 2-(2,6-disubstituted phenyl)-5-[5-arylthien-3-yl]-1,2,4-triazole. The difference between instant

claims and Hegde et al. is that the instant compounds are isomers of Hegde et al., and a terminal disclaimer against Hegde et al. '665 has been filed and approved in the Office. Claims 1-21 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
